### Skills

HTML	CSS
JavaScript	Dom Manipulation
React js	React Routers
Redux	Bootstrap and Tailwind
Version Control and version management	OOP

### Projects

#### Weather

- Built a weather website by accessing data from an API that forecasts live weather updates.
- Created using React js, redux, RTK data-fetching tool to fetch data from API.
- Real time weather app that forecasts current, hourly and daily weather.

#### Recipe-book

- I built a recipe, a single page application that allows users to prepare any dish they want.
- The website was created using React JS, React routers, Tailwind, and Firebase for authentication and backend.
- Users can create an account on the website and save their favourite recipes.

#### Twitter-clone

- Built a twitter clone
- Created using React Js, React routers, Tailwind, firebase for authentication and backend.
- Allows user to post, follow, retweet and like a post.
